I states that funds required for water supplies arrangements for the newly formed Extensions have been provided for in the respective schemes and that in instances of Govt sanctions a special grant for improvement of water supply in the city are traceable

(a) The proposal in para 5, is for which orders Refer. para 4 of

(b) The term "ordinary" in Section 19 of the 20/1 Manual, connotes absence of special features. ~~grants~~ The expenditure incurred on improvements to water-supply within the city will have a legitimate charge on the funds

Having regard to the fact that we first have secured sanctioned a general scheme of improvements of water supply in the city by contributing half the estimated expenditure to the extent of over three lakhs, the expenditure in question is one to be met legitimately by the MCC It should not be a charge on the Trust Board

Trust Board further, it would be undesirable to sanction grants for the same purpose to two bodies — the Municipality and the Trust Board — in respect of the same city or town. In the light of the above facts, it is for orders if the request of the Trust Board to make a grant of Rs 25,000/- may be sanctioned.

Sir,

Re: Improvements of water supply to Chamundi Extension and providing water supply to model houses on K R. Vanam

---

I have the honour to state that the Executive Engineer, Water Supply Division sent up an estimate amounting to Rs.59,600/- to the Municipal President, Mysore City Municipality with his No 4030 dated 28th June 1945 for improving water supply to the Chamundi Extension and also for providing water supply to the model houses on Krishnarajavanam, as the present supply has been very inadequate, new extensions having come up

The above estimate was approved by the Municipal Council in their Resolution No 1107 of July 1945 with a note that the Trust Board may be requested to kindly meet half the cost of the estimate as the amount involved was heavy

The Trust Board, in their Resolution No 26 dated 25th July 1945 have sanctioned the above proposal

But under Para 17 of the Trust Board Business Manual, water supply and lighting has to be ordinarily provided for by the Municipality and not by the Trust Board

It is seen that when the original extension of Chamundipuram was laid out water supply has been provided for by the Trust Board at a cost of Rs.7,251/- Even in the case of extensions of Paduvarahalli, Yadavagiri and Bannimantap (now being laid up) provision for water supply and electricity is made in the concerned estimates, though the latter is not expected to be done by the Trust Board according to the Business Manual

As the improvement of water supply is necessitated on account of extensions formed by the Board, it is considered fair for the Trust Board to

P T O

meet the cost on this account.

Under these circumstances, the Board's proposal to meet half the cost of the estimate under reference viz , Rs $\frac{59,600}{2}$ = Rs.29,800/- may kindly be permitted to be borne by the Trust Board and a special grant to that extent sanctioned to the Trust Board, as there is no balance to meet the above cost

Sir,

Re Improvements of water supply to Chamundi Extension and providing water supply to Model Houses at Krishnarajavanam

With reference to your letter No L 4939 dated 11th December 1945 on the above subject, I have the honour to state that on going through the previous records, it is seen that in one instance, viz , "Laying 2½" submain in Sri Vyasarayaswamy Mutt compound"(Kantharaj Urs Road) estimated to cost Rs 991/-, half the cost has been met from the Trust Board Funds, and the other half from the Municipality For this no special grant has been obtained from the Government, but it has been met from the usual annual grant Recently funds required for water supply arrangements for the newly formed extensions in the City have been provided for in the respective schemes themselves as required by Government in Law Secretary's letter No L 2679 dated 20th September 1944

No other instances, wherein special grant has been obtained from the Government for improvements of water supply in the City proper are traceable

Subj - Improvement of water supply to Chamundi Selection and providing water supply to Model houses at Kathmandu

Sir,

With reference to the correspondence ending with your letter no D 2 C 95/45-46 dated 7-1-46, requesting the Govt to make a grant to the Trust Board, Rs 29,000/ being half the cost of the Estimate for the above works, I am directed to observe that such proposals for financial assistance from the Govt should be scrutinised by you with reference to existing rules, previous practice and the admissibility of such grants. The provision

WD 03697—GPB—30 000—2 2 46

of water supply to the city is a legitimate duty cast on the Municipal Council and it is not clear why the Trust Board has asked for a grant-in-aid from the Govt for the above work, the proposal on which should be met by the Municipality.

The above proposal of the Trust Board is not therefore acceptable to Govt, having regard also to the fact that the Govt have recently sanctioned the immediate improvements to the water supply arrangements in the city at a cost of over six lakhs of rupees

I have the honour to be,
Sir,
Your most obedient servant,
